Contact: 9765875727

Profile Summary

I am an independent learner and cybersecurity researcher focusing on external security assessments, reconnaissance, and vulnerability identification. My work follows safe, ethical, and non-intrusive testing practices aligned with OWASP and NIST methodologies.

This audit is part of my independent project work and ongoing learning in cybersecurity.

Qualifications

- **BE Computer Engineering (Ongoing)** — IOE Pokhara
- **+2 Computer Science (GPA 3.7), 2025**

Skills & Focus Areas

- OSINT & reconnaissance
- Subdomain and DNS enumeration
- External attack surface analysis
- TLS and security header evaluation
- Non-destructive vulnerability testing
- Documentation & reporting
- CVSS-based risk scoring

A refined, non-sensitive version of this audit may later be published on my portfolio (anujpanthi.com.np) with full credit attributed to me.
